

Worksheet 7.7 Making a poster – assessment for learning

Make a poster to illustrate the properties of acids and alkalis.

When you are happy with your poster, swap it with a partner.

Assess your partner's work using the tables below.

Feature	Yes or no?
Have facts about acids and alkalis been clearly shown?	
Is it clear which facts belong to acids and which to alkalis?	
Have scientific terms been used correctly?	
Has some scientific knowledge been used?	
Is there an account of any dangers?	
Is there a good range of information?	
Has a link between the properties and the uses of acids and alkalis been shown?	

Describe one thing that your partner has done well.	
Describe one thing that your partner could improve.	

Now look at your own work. Do you agree with your partner's assessment?
